The information relating to a Loan and/or the Portfolio may change after that date, including as a result of actions by the Seller, Servicer, Covered Bond Guarantor and/or the Borrower. Columns stating percentage amounts may not add up to 100% due to rounding. This information is provided for information purposes only.

## Additional Information

## Indexed Valuation

The Reference Indexed Valuation means the valuation of the property increased or decreased as appropriate by the increase or decrease in the Reference Index since the date of that valuation.

5yr - 10yrs More Than 10 yrs

Total by Maturity

The Reference Index is currently the CoreLogic House Price Index quarterly index. Therefore, the underlying property values used in relation to the covered bond pool of residential mortgages is updated to reflect current property market values at least quarterly. In the Asset Coverage Test and the Amortisation Test, the Indexed Valuation means where:

• the Reference Indexed Valuation is less than the valuation of the property, then the Reference Indexed Valuation is used

• the Reference Indexed Valuation is greater than the valuation of the property, then only 85% of the increase is applied
