General information and definitions

The information contained in this General Short Form Disclosure Statement is as required by section 81 of the Reserve Bank of New Zealand Act 1989 and the Registered Bank Disclosure Statement (Off-Quarter – New Zealand Incorporated Registered Banks) Order 2007 (New Zealand) ('Order').

In this General Short Form Disclosure Statement reference is made to:

- Westpac New Zealand Limited (otherwise referred to as the 'Bank').
- Westpac New Zealand Limited and its subsidiaries (otherwise referred to as the 'Banking Group'). As at 30 June 2007, the Bank has the following subsidiaries:
 - Westpac NZ Operations Limited
 - Westpac Securities NZ Limited
 - The Home Mortgage Company Limited
 - Westpac (NZ) Investments Limited
 - The Warehouse Financial Services Limited

- Holding company
- Funding company
- Residential mortgage company
- Property owning and capital funding company
- Financial services company

Words and phrases defined by the Order have the same meaning when used in this General Short Form Disclosure Statement. All amounts referred to in this General Short Form Disclosure Statement are in New Zealand dollars unless otherwise stated.

General matters

Registered Bank

The Bank was incorporated as Westpac New Zealand Limited under the Companies Act 1993 (company number 1763882) on 14 February 2006. The head office of the Bank is situated at, and the address for service of the Bank is, Level 15, 188 Quay Street, Auckland, New Zealand.

The Bank is a wholly-owned subsidiary of Westpac New Zealand Group Limited, a New Zealand company, which in turn is a wholly-owned subsidiary of Westpac Overseas Holdings No. 2 Pty Limited, an Australian company. Westpac Overseas Holdings No. 2 Pty Limited is, in turn, a wholly-owned subsidiary of Westpac Banking Corporation ('Ultimate Parent Bank'). The Ultimate Parent Bank is incorporated in Australia under the Australian Corporations Act 2001, and its address for service is Level 20, Westpac Place, 275 Kent Street, Sydney, New South Wales 2000, Australia. By virtue of this holding structure:

- Westpac New Zealand Group Limited has a direct qualifying interest in 100% of the voting securities in the Bank and the ability to directly appoint 100% of the Board of Directors of the Bank ('Board'); and
- as indirect holding companies of the Bank, each of the Ultimate Parent Bank and Westpac Overseas Holdings No. 2 Pty Limited has an indirect qualifying interest in 100% of the voting securities of the Bank and the ability to indirectly appoint 100% of the Board.

The Bank commenced trading on 1 November 2006 (see the Local incorporation section on page 2 for more information). Consequently, while this General Short Form Disclosure Statement is prepared for the nine months ended 30 June 2007, financial disclosure in respect of the Bank over this period includes only eight months of trading.

Limits on material financial support by the Ultimate Parent Bank

The Ultimate Parent Bank is an Authorised Deposit-taking Institution under the Banking Act 1959 (Australia), and as such is subject to prudential supervision by the Australian Prudential Regulatory Authority ('APRA'). APRA has the power to prescribe prudential requirements which may affect the ability of the Ultimate Parent Bank to provide material financial support to the Bank. Pursuant to current APRA requirements, the Ultimate Parent Bank must comply with the following:

- the level of exposure to the Bank must not exceed:
 - 50% on an individual exposure basis; and
 - 150% in aggregate (being exposures to all similar regulated entities related to the Ultimate Parent Bank) of the Ultimate Parent Bank's capital base;
- the Ultimate Parent Bank should not undertake any third-party dealings with the prime purpose of supporting the business of the Bank;
- the Ultimate Parent Bank should not hold unlimited exposures (such as a general guarantee covering any of the Bank's obligations) in the Bank:
- the Ultimate Parent Bank should not enter into cross-default clauses whereby a default by the Bank on an obligation (whether financial or otherwise) is deemed to trigger a default of the Ultimate Parent Bank in its obligations; and
- when determining limits on acceptable levels of exposure to the Bank, the board of the Ultimate Parent Bank should have regard to:
 - the level of exposure that would be approved to third parties of broadly equivalent credit status. In this regard, prior consultation (and in some cases approval) is required before entering exceptionally large exposures; and
 - the impact on the Ultimate Parent Bank's capital and liquidity position and its ability to continue operating in the event of a failure by the Bank.

The Ultimate Parent Bank complies with the requirements set by APRA on the extent of financial support the Ultimate Parent Bank may provide to the Bank.

In addition, pursuant to the Banking Act 1959 (Australia), in the event that the Ultimate Parent Bank is unable to meet its obligations or suspends payment, the Australian assets of the Ultimate Parent Bank are to be available to meet the deposit liabilities of the Ultimate Parent Bank in Australia in priority to all its other liabilities.

Directorate

The Directors of the Bank (the Board) at the time this General Short Form Disclosure Statement was signed were:

David Raymond Morgan, BEC, MSC, PhD Bradley John Cooper, Dip Bus Studies, MBA, FAIM Elizabeth Blomfield Bryan, BA, MA (Econ) Harold Maffey Price Peter David Wilson, CA Ralph Graham Waters, C.P.Eng, F.I.E (AUST) M.Bus

There have been no changes to the composition of the Board since publication of the Bank's General Disclosure Statement for the six months ended 31 March 2007.

Local incorporation

Until 1 November 2006, the Ultimate Parent Bank conducted its New Zealand operations through a branch ('NZ Branch'). The Reserve Bank of New Zealand's policy is that all systemically important banks must incorporate as a local entity rather than operate through a branch structure. The NZ Branch was deemed to be a systemically important bank and was therefore required to incorporate locally.

The Reserve Bank of New Zealand allows an overseas bank to operate in New Zealand as both a branch of its overseas parent and through a subsidiary. The Ultimate Parent Bank has determined that this type of 'dual registration' is the most effective option for it to comply with the Reserve Bank of New Zealand's policy, while minimising disruption to the NZ Branch's investors and customers.

Accordingly, the Ultimate Parent Bank established the Bank to assume and carry on the New Zealand consumer and business banking operations of the NZ Branch. The Bank commenced trading as a registered bank under the Reserve Bank of New Zealand Act 1989 on 1 November 2006. The NZ Branch continues to operate in New Zealand, retaining the Ultimate Parent Bank's New Zealand wholesale banking and financial markets business.

The reorganisation of the Ultimate Parent Bank's business was facilitated by legislation. Pursuant to the Westpac New Zealand Act 2006 (**'the Act'**) designated assets and liabilities of the Ultimate Parent Bank relating to business banking and consumer business vested in the Bank on 1 November 2006. See Note 17: Vested assets and liabilities for more information.

Credit ratings

The Bank has the following credit ratings with respect to its long term senior unsecured obligations, including obligations payable in New Zealand in New Zealand dollars. On 22 February 2007, Standard & Poor's raised its long term credit rating to 'AA' from 'AA-'. On 4 May 2007, Moody's Investors Service raised its long term credit rating to 'Aa2' from 'Aa3'.

These credit ratings are given without any qualifications.

Rating Agency	Current Credit Rating
Standard & Poor's	AA
Moody's Investors Service	Aa2

Descriptions of credit rating scales

	Standard & Poor's	Moody's Investors Service
The following grades display investment grade characteristics:		
Ability to repay principal and interest is extremely strong. This is the highest investment category.	AAA	Aaa
Very strong ability to repay principal and interest.	AA	Aa
Strong ability to repay principal and interest although somewhat susceptible to adverse changes in economic, business or financial conditions.	А	А
Adequate ability to repay principal and interest. More vulnerable to adverse changes.	BBB	Baa

The following grades have predominantly speculative characteristics:		
Significant uncertainties exist which could affect the payment of principal and interest on a timely basis.	BB	Ва
Greater vulnerability and therefore greater likelihood of default.	В	В
Likelihood of default now considered high. Timely repayment of principal and interest is dependent on favourable financial conditions.	CCC	Caa
Highest risk of default.	CC to C	Ca to C
Obligations currently in default.	D	-

Credit ratings by Standard & Poor's may be modified by the addition of a plus (higher end) or minus (lower end) sign. Moody's Investors Service apply numeric modifiers 1 (higher end), 2 or 3 (lower end) to ratings from Aa to B to show relative standing within major categories.

Risk management policies

There have been no changes to the risk management policies and no new categories of risk to which the Banking Group has become exposed since the publication of the Bank's General Disclosure Statement for the six months ended 31 March 2007.

Market risk

The Banking Group's aggregate market risk exposure is derived in accordance with the ninth schedule (sub-clauses (1)(a), (8)(a) and (11)(a)) of the Order.

The peak end-of-day exposures below have been calculated by determining the maximum end-of-day aggregate market risk exposure over the relevant three-month period, and then dividing that amount by the Banking Group's equity as at the end of the period.

	The Banking Group			
	Peak End-of-Day		Peak End-of-Day	
	for the Three		for the Three	
As at	Months Ended	As at	Months Ended	
30 June	30 June	30 June	30 June	
2007	2007 2007	2006	2006 Unaudited	
Unaudited	Unaudited	Unaudited		
\$m	\$m	\$m	\$m	
Aggregate interest rate exposure 159	411	-	-	
As a percentage of the Banking Group's equity 6.20%	15.90%	0.00%	0.00%	

The Banking Group has no material exposure to equity risk or foreign currency risk.

Guarantee arrangements

The material obligations of the Bank are not guaranteed.

Conditions of registration

The Conditions of registration imposed on the Bank, which applied from 30 March 2007, are as follows:

- 1. That the Banking Group complies with the following requirements:
 - Capital of the Banking Group is not less than 8 percent of risk weighted exposures.
 - Tier One Capital of the Banking Group is not less than 4 percent of risk weighted exposures.
 - Capital of the Banking Group is not less than NZ \$15 million.

For the purposes of this condition of registration, capital, Tier One Capital and risk weighted exposures shall be calculated in accordance with the Reserve Bank of New Zealand document entitled 'Capital Adequacy Framework' (BS2) dated March 2007.

- 2. That the Banking Group does not conduct any non-financial activities that in aggregate are material relative to its total activities, where the term material is based on generally accepted accounting practice as defined in the Financial Reporting Act 1993.
- 3. That the Banking Group's insurance business is not greater than 1 percent of its total consolidated assets. For the purposes of this condition:
 - i Insurance business means any business of the nature referred to in section 4 of the Insurance Companies (Ratings and Inspections) Act 1994 (including those to which the Act is disapplied by sections 4(1)(a) and (b) and 9 of that Act), or any business of the nature referred to in section 3(1) of the Life Insurance Act 1908.
 - ii In measuring the size of a Banking Group's insurance business:
 - (a) where insurance business is conducted by any entity whose business predominantly consists of insurance business, the size of that insurance business shall be:
 - the total consolidated assets of the group headed by that entity;
 - or if the entity is a subsidiary of another entity whose business predominantly consists of insurance business, the total consolidated assets of the group headed by the latter entity;
 - (b) otherwise, the size of each insurance business conducted by any entity within the Banking Group shall equal the total liabilities relating to that insurance business, plus the equity retained by the entity to meet the solvency or financial soundness needs of the insurance business:
 - (c) the amounts measured in relation to parts (a) and (b) shall be summed and compared to the total consolidated assets of the Banking Group. All amounts in parts (a) and (b) shall relate to on-balance sheet items only, and shall be determined in accordance with generally accepted accounting practice, as defined in the Financial Reporting Act 1993;
 - (d) where products or assets of which an insurance business is comprised also contain a non-insurance component, the whole of such products or assets shall be considered part of the insurance business.

Conditions of registration (continued)

4. That the aggregate credit exposures (of a non-capital nature and net of specific provisions) of the Banking Group to all connected persons do not exceed the rating-contingent limit outlined in the following matrix:

Credit rating Connected exposure limit (Percentage of the Banking Group's Tier One Capital)		
AA/Aa2 and above	75	
AA-/Aa3	70	
A+/A1	60	
A/A2	40	
A-/A3	30	
BBB+/Baa1 and below	15	

Within the rating-contingent limit, credit exposures (of a non-capital nature and net of specific provisions) to non-Bank connected persons shall not exceed 15 percent of the Banking Group's Tier One Capital.

For the purposes of this condition of registration, compliance with the rating-contingent connected exposure limit is determined in accordance with the Reserve Bank of New Zealand document entitled 'Connected Exposures Policy' (BS8) dated March 2007.

- 5. That exposures to connected persons are not on more favourable terms (e.g. as relates to such matters as credit assessment, tenor, interest rates, amortisation schedules and requirement for collateral) than corresponding exposures to non-connected persons.
- 6. That the board of the Bank contains at least two independent directors. In this context an independent director is a director who is not an employee of the Bank, and who is not a director, trustee or employee of any holding company of the Bank, or any other entity capable of controlling or significantly influencing the Bank.
- 7. That the chairperson of the Bank's board is not an employee of the Bank.
- 8. That the Bank's constitution does not include any provision permitting a director, when exercising powers or performing duties as a director, to act other than in what he or she believes is the best interests of the company (i.e. the Bank).
- 9. That no appointment of any director, chief executive officer, or executive who reports or is accountable directly to the chief executive officer, shall be made unless:
 - (a) the Reserve Bank of New Zealand has been supplied with a copy of the curriculum vitae of the proposed appointee; and
 - (b) the Reserve Bank of New Zealand has advised that it has no objection to that appointment.

10. That a substantial proportion of the Bank's business is conducted in and from New Zealand.

- 11. That by 31 December 2007 the Bank will have legal and practical ability to control and execute any business, and any functions relating to any business, of the Bank that are carried on by a person other than the Bank, sufficient to achieve, under normal business conditions and in the event of stress or failure of the Bank or of a service provider to the Bank, the following outcomes:
 - (a) that the Bank's clearing and settlement obligations due on a day can be met on that day;
 - (b) that the Bank's financial risk positions on a day can be identified on that day;
 - (c) that the Bank's financial risk positions can be monitored and managed on the day following any failure and on subsequent days; and
 - (d) that the Bank's existing customers can be given access to payments facilities on the day following any failure and on subsequent days.

For the purposes of this condition of registration, the term "legal and practical ability to control and execute" is explained in the Reserve Bank of New Zealand document entitled 'Outsourcing Policy' (BS11) dated January 2006.

- 12.(a) That the business and affairs of the Bank are managed by, or under the direction or supervision of, the board of the Bank.
 - (b) That the employment contract of the chief executive officer of the Bank or person in an equivalent position (together "CEO") is with the Bank, and the terms and conditions of the CEO's employment agreement are determined by, and any decisions relating to the employment or termination of employment of the CEO are made by, the board of the Bank.
 - (c) That by 31 December 2007 all staff employed by the Bank will have their remuneration determined by (or under the delegated authority of) the board or the CEO of the Bank and be accountable (directly or indirectly) to the CEO of the Bank.
- 13. That, for the purposes of calculating the Bank's capital ratios on a solo basis, a credit conversion factor of zero is only applied to a guarantee of a financing subsidiary's financial obligations if, in substance, the guarantee does not create a risk of loss for the Bank.

For the purposes of these Conditions of registration, the term "Banking Group" means Westpac New Zealand Limited's financial reporting group as defined in section 2(1) of the Financial Reporting Act 1993.

With respect to the seventh condition of registration stated above, please note that the chairperson of the Bank's board is an employee of Westpac Banking Corporation.

Directors' statement

Each Director of the Bank believes, after due enquiry, that, as at the date on which this General Short Form Disclosure Statement is signed:

- (a) the General Short Form Disclosure Statement contains all the information that is required by the Registered Bank Disclosure Statement (Off-Quarter New Zealand Incorporated Registered Banks) Order 2007 (New Zealand); and
- (b) the General Short Form Disclosure Statement is not false or misleading.

Each Director of the Bank believes, after due enquiry, that, over the nine months ended 30 June 2007:

- (a) the Bank has complied with the Conditions of registration imposed on it pursuant to section 74 of the Reserve Bank of New Zealand Act 1989;
- (b) the credit exposures to connected persons (if any) were not contrary to the interests of the Banking Group; and
- (c) the Bank had systems in place to monitor and control adequately the Banking Group's material risks, including credit risk, concentration of credit risk, interest rate risk, currency risk, equity risk, liquidity risk and other business risks, and that those systems were being properly applied.

This Directors' Statement has been signed by all the Directors:

David Raymond Morgan

Dand Morgan

Bradley John Cooper

Elizabeth Blomfield Bryan

Harold Maffey Price

Ralph Graham Waters

Peter David Wilson

General accounting policies

Statutory base

These consolidated short form financial statements are prepared and presented in accordance with the Financial Reporting Act 1993 (New Zealand), the Registered Bank Disclosure Statement (Off-Quarter – New Zealand Incorporated Registered Banks) Order 2007 (New Zealand) ('Order'), the Reserve Bank of New Zealand Act 1989, applicable New Zealand equivalents to International Financial Reporting Standards ('NZ IFRS') and other authoritative pronouncements of the Accounting Standards Review Board, as appropriate for profit-oriented entities. Compliance with NZ IFRS ensures that the financial report comprising the financial statements and accompanying notes of the NZ Banking Group comply with International Financial Reporting Standards.

These consolidated short form financial statements were authorised for issue by the Board of Directors of the Bank ('Board') on 27th day of August 2007.

Basis of preparation

The consolidated short form financial statements are based on the general principles of historical cost accounting, as modified by the fair value accounting for financial assets and liabilities held for trading and all derivative contracts. The going concern concept and the accrual basis of accounting have been adopted. All amounts are expressed in New Zealand currency unless otherwise stated.

The consolidated short form financial statements have been prepared in accordance with NZ IAS 34 *Interim Financial Reporting*. The same accounting policies have been followed in preparing these consolidated short form financial statements that were disclosed in the General Disclosure Statement for the six months ended 31 March 2007.

As the Bank was incorporated on 14 February 2006, the first accounting period for the Banking Group was the period from 14 February 2006 to 30 September 2006. Accordingly, this General Short Form Disclosure Statement contains comparative figures for the periods from 14 February 2006 to 30 June 2006 and 14 February 2006 to 30 September 2006. Further detail on comparative information is contained in Note 18.

Change to corporate tax rate

In May 2007, the corporate tax rate in New Zealand was changed from 33% to 30% with effect from the 2008/09 income tax year. The impact of this will take effect for the Banking Group from 1 October 2008. This revised rate has not impacted the current tax liability balance for the current income tax year, but will do so in future periods. However, the impact of the change in the income tax rate has been taken into account in the measurement of deferred taxes at the end of the reporting period. The change in the income tax rate has resulted in a decrease in the deferred tax asset balance of \$6,694,014 and a decrease in the deferred tax liability balance of \$431,392. Of the adjustment arising from the change in tax rates \$6,694,014 has been recognised in the income statement, while a credit of \$431,392 has been recognised directly in equity as it relates to items previously charged to equity. As the deferred tax liability balance is offset against the deferred tax asset balance, the net deferred tax asset balance has decreased by \$6,262,622 on the face of the balance sheet.

Note 9 Perpetual subordinated notes

These notes have been issued to Westpac New Zealand Group Limited. The notes have no final maturity, but may be redeemed at par only at the option of the Bank. The notes pay quarterly distributions provided that at the time payment is made the Bank will be solvent immediately after payment. The notes are direct and unsecured obligations of the Bank and are subordinated to the claims of all creditors (including depositors) of the Bank other than those creditors whose claims against the Bank are expressed to rank equally with or after the claims of the note holder.

Total subordinated debentures	970	-	700	

Note 10 Commitments and contingent liabilities

The Banking Group is party to financial instruments with off-balance sheet credit risk in the normal course of business to meet the financing needs of its customers and in managing its own risk profile. These financial instruments include commitments to extend credit, bill endorsements, financial guarantees, standby letters of credit and underwriting facilities.

The Banking Group's exposure to credit loss in the event of non-performance by the other party to such financial instruments is represented by the contract or notional amount of those instruments. However, some commitments to extend credit and provide underwriting facilities can be cancelled or revoked at any time at the Banking Group's option.

The Banking Group uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments.

The Banking Group takes collateral where it is considered necessary to support, both on and off-balance sheet, financial instruments with credit risk. The Banking Group evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral taken, if deemed necessary, on the provision of a financial facility is based on management's credit evaluation of the counterparty. The collateral taken varies, but may include cash deposits, receivables, inventory, plant and equipment, real estate and investments.

Where the Bank enters into financial guarantee contracts to guarantee the indebtedness of other companies within the Banking Group, the Bank considers these to be insurance arrangements, and accounts for them as such. In this respect, the Bank treats the guarantee contract as a contingent liability until such time as it becomes probable that the Bank will be required to make payment under the guarantee. The Bank guarantees commercial paper and other debt securities issued by Westpac Securities NZ Limited, the proceeds of which, in accordance with Reserve Bank of New Zealand guidelines, are immediately on lent to the Bank.

Other contingent liabilities

The Banking Group has other contingent liabilities in respect of actual and potential claims and proceedings, and obligations in respect of any action or enquiry that has been, or may be, made by the Bank's regulators. An assessment of the Banking Group's likely loss in respect of these matters has been made on a case-by-case basis and provision made where appropriate.

The New Zealand Commerce Commission issued proceedings on 9 November 2006 against the Bank, The Warehouse Financial Services Limited (a member of the Banking Group), Visa International, Cards NZ Limited, MasterCard International and all New Zealand issuers of Visa and MasterCard credit cards alleging that the setting of interchange rates and rules (relating to honour all cards, no surcharge, access and no discrimination) amount to price fixing or alternatively have the effect of substantially lessening competition in the New Zealand market in breach of the Commerce Act 1986. The proceedings seek to declare the conduct illegal and impose unspecified monetary penalties. In addition, on 29 November 2006, a number of New Zealand retailers issued similar proceedings to the Commerce Commission, as described above, against the Bank, The Warehouse Financial Services Limited, Visa International, Cards NZ Limited, MasterCard International and New Zealand issuers of Visa and MasterCard credit cards. These proceedings also seek to declare the conduct illegal and an enquiry into damages. Any damages awarded, if any, would be in addition to any penalties imposed under the Commerce Act 1986 in the event the Commerce Commission is successful in the proceedings described above. The Bank is considering its position in relation to both proceedings. As at the date of this General Short Form Disclosure Statement, no provision has been made in the financial statements in relation to these proceedings.

Note 10 Commitments and contingent liabilities (continued)

The New Zealand Inland Revenue Department is reviewing a number of structured finance transactions undertaken by the NZ Branch and a number of subsidiaries of the Ultimate Parent Bank in New Zealand. The review includes transactions in which The Home Mortgage Company Limited and Westpac (NZ) Investments Limited, members of the Banking Group, participated. Liability for tax reassessment, if any, arising from the review will rest with the Ultimate Parent Bank. See Westpac Banking Corporation's General Short Form Disclosure Statement for the nine months ended 30 June 2007 (Note 12: Commitments and contingent liabilities) for further information on the New Zealand Inland Revenue Department review.

The Bank leases the majority of the properties it occupies. As is normal practice, the lease agreements contain 'make good' provisions, which require the Bank, upon termination of the lease, to return the premises to the lessor in the original condition. The maximum amount payable by the Bank upon vacation of all leased premises subject to these provisions is estimated to be \$14 million. The Bank believes it is highly unlikely it would incur a material operating loss as a result of this in the normal course of its business operations.

Other commitments

As at 30 June 2007, the Banking Group had commitments in respect of interest swap transactions, provision of credit, underwriting facilities and other engagements entered into in the normal course of business. The Banking Group has management systems and operational controls in place to manage interest rate risk. Accordingly, it is not envisaged that any liability resulting in material loss to the Banking Group will arise from these transactions.

The Bank guarantees certain obligations of Westpac Securities NZ Limited under funding programmes that provide funding to the Bank.

Note 11 Concentration of credit exposures to individual counterparties

Analysis of credit exposures to individual counterparties

The number of counterparties to which the Bank has a credit exposure equal to or greater than 10% of the Banking Group's equity is shown below.

10-20% of Banking Group's equity		Peak End-of-Day for the Three Months Ended 30 June 2007 Unaudited	As at 30 June 2006 Unaudited	Peak End-of-Day for the Three Months Ended 30 June 2006 Unaudited	As at 30 September 2006 Audited	Peak End-of-Day for the Three Months Ended 30 September 2006 Audited
Individual counterparties						
Bank counterparties	-	-	-	-	-	-
Non-bank counterparties	-	-	-	-	-	-
Closely related counterparties						
Bank counterparties	-	-	-	-	-	-
Non-bank counterparties	-	-	-	-	-	-

The peak end-of-day exposures have been calculated by determining the maximum end-of-day aggregate amount of credit exposure over the relevant three-month period and then dividing that by the Banking Group's equity as at the end of the period. Credit exposure used in the above calculations is determined with reference to actual credit exposures. Credit exposures to individual counterparties (not being members of a group of closely related counterparties) and to groups of closely related counterparties do not include exposures to those counterparties if they are recorded outside New Zealand nor exposures to connected persons or any OECD government. These calculations relate only to exposures held in the financial records of the Banking Group and were calculated net of specific provisions.

Note 11 Concentration of credit exposures to individual counterparties (continued)

The aggregate amount of the credit exposure and percentage of the Group's equity to which the Banking Group has a credit exposure equal to or greater than 10% of the equity is shown below.

Note 12 Capital adequacy

The information contained in the tables below has been derived in accordance with the Bank's Conditions of registration which relate to capital adequacy and the Reserve Bank of New Zealand document entitled 'Capital Adequacy Framework' (BS2) dated March 2007.

For the purposes of calculating the capital adequacy ratios for the Bank, wholly-owned and wholly-funded subsidiaries of the Banking Group are consolidated with the Bank. In this context, wholly-funded by the Bank means that there are no liabilities (including off-balance sheet obligations) to anyone other than the Bank, the Inland Revenue Department and trade creditors, where aggregate exposure to trade creditors does not exceed 5% of the subsidiary's shareholders' equity. Wholly-owned by the Bank means that all equity issued by the subsidiary is held by the Bank.

Note 13 Credit exposures to connected persons and non-bank connected persons

The Reserve Bank of New Zealand defines connected persons to be other members of the Ultimate Parent Banking Group and Directors of the Bank. Controlled entities of the Bank are not connected persons. Credit exposures to connected persons are based on actual credit exposures rather than internal limits, net of specific provisions and exclude advances to connected persons of a capital nature. Peak end-of-day credit exposures to connected persons have been derived by determining the maximum end-of-day aggregate amount of credit exposure over the relevant three-month period and then dividing that amount by the Banking Group's Tier One Capital as at the end of the period. Credit exposures to connected persons reported in the table below have been calculated on a gross basis.

	The Banking Group			
		Peak Over the Three		Peak Over the Three
	As at	Months Ended	As at	Months Ended
	30 June	30 June	30 June	to 30 June
	2007	2007	2006	2006
	Unaudited	Unaudited	Unaudited	Unaudited
	\$m	\$m	\$m	\$m
Credit exposures to connected persons	-		-	-
Credit exposures to connected persons expressed as a percentage of				
Tier One Capital of the Banking Group at end of the period	0.0%	0.0%	0.0%	0.0%
Credit exposures to non-bank connected persons	-	-	-	-
Credit exposures to non-bank connected persons expressed as a percentage of				
Tier One Capital of the Banking Group at end of the period	0.0%	0.0%	0.0%	0.0%

As at 30 June 2007, the rating contingent limit applicable to the Bank was 75% of Tier One Capital. Within this overall rating contingent limit there is a sub-limit of 15% of Tier One Capital which applies to the aggregate credit exposure to non-bank connected persons. There have not been any changes in these limits during the three months ended 30 June 2007.

The limits on aggregate credit exposure to all connected persons and to non-bank connected persons in the Bank's Conditions of registration have been complied with at all times over the three months ended 30 June 2007.

Where a bank is funding a large loan it is common practice to share the risk of a customer default with a syndicate of banks. These arrangements are called risk lay-off arrangements. As at 30 June 2007, the Banking Group had no aggregate contingent exposures to connected persons arising from risk lay-off arrangements in respect of credit exposures to counterparties (other than counterparties which are connected persons) (30 June 2006: nil). There were no allowances for impairment losses on individual financial assets against credit exposures to connected persons as at 30 June 2007 (30 June 2006: nil).

The aggregate amount of the Banking Group's specific provisions provided against credit exposures to connected persons was nil as at 30 June 2007 (30 June 2006: nil).

Note 14 Segment information

The Banking Group operates predominantly in the finance and residential mortgage industries within New Zealand.

The basis of segment reporting reflects the management of the business within the Banking Group. Management consider the Banking Group to operate in one business segment, Retail Banking. The Retail Banking segment is responsible for servicing and product development for consumer and smaller to medium sized business banking customers within New Zealand, and includes the Corporate Head Office functions and funding activities that exist within New Zealand.

Note 15 Securitisation, funds management, other fiduciary activities and the marketing and distribution of insurance products

Securitisation

As at 30 June 2007, the Banking Group has securitised assets amounting to \$597 million (30 June 2006: nil, 30 September 2006: nil), all having been sold by the Banking Group to the Westpac Home Loan Trust ('HLT'), and the Westpac Mortgage Investment Fund ('MIF') via the HLT. HLT and MIF were established, pursuant to trust deeds between BT Funds Management (NZ) Limited and the New Zealand Custodian Trust Company Limited with the principal purpose of investing in home loans originated by the Bank. The purchase of these home loans has been funded with the proceeds of units subscribed for, and issued to, retail investors in New Zealand. The Banking Group receives fees for various services provided to HLT and MIF on an arm's length basis, including servicing fees and management fees. These fees are recognised over the years in which the costs are borne.

Funds management and other fiduciary activities

The Bank markets the products of BT Funds Management (NZ) Limited, a member of the Ultimate Parent Banking Group, through its branch network. The Bank derives commission from the sale of managed fund products, superannuation and unit trusts marketed on behalf of BT Funds Management (NZ) Limited. The Bank also provides investment advice to a number of clients, this includes the provision of other fiduciary activities.

Involvement with other fiduciary activities

Financial services provided by, and assets purchased from, any member of the Ultimate Parent Bank Group are on arm's length terms and conditions at fair value.

Marketing and distribution of insurance products

The Bank markets and distributes both life and general insurance products. The life insurance products are underwritten by Westpac Life - NZ - Limited (a member of the Ultimate Parent Bank group of companies). The general insurance products are underwritten by external third party insurance companies. Disclosure statements are made in all marketing material that the products are underwritten by those companies and that the Bank does not guarantee the obligations of, or any products issued by, those companies.

Peak aggregate funding provided to entities

The Banking Group did not provide any funding to entities conducting the securitisation activities, funds management and other fiduciary activities or insurance product marketing and distribution activities described in this note (or to any other parties on whose behalf the marketing and distribution of insurance products is conducted) during the three months ended 30 June 2007 (30 June 2006: nil, 30 September 2006: nil).

Note 16 Insurance business

The Banking Group does not conduct any insurance business.

Note 17 Vested assets and liabilities

Certain New Zealand assets and liabilities of the Ultimate Parent Bank vested in the Bank on 1 November 2006. This note has been prepared to provide guidance on the impact of the vesting as at 1 November 2006 by presenting a balance sheet prepared by reconciling the opening position before vesting to the new position following vesting on 1 November 2006.

As set out in the Local incorporation section on page 2, the Ultimate Parent Bank established the Bank to assume and carry on the New Zealand consumer and business banking operations of the NZ Branch. Wholesale banking and financial markets business remain with the NZ Branch.

The reorganisation of the Ultimate Parent Bank's business was facilitated by legislation. The Westpac New Zealand Act 2006 provided for the vesting of designated NZ Branch assets and liabilities in the Bank on 1 November 2006.

The Bank commenced business as a registered bank on 1 November 2006.

The assets and liabilities that vested in the Bank included all deposits and other liabilities, loans, securities and interests in land in relation to business banking (being financial services provided by the NZ Branch to small, medium and corporate business customers, agricultural businesses, and property investment and development customers) and consumer banking (being the financial services provided by the NZ Branch in relation to consumers). In addition, on 1 November 2006, the Bank acquired Westpac (NZ) Investments Limited, The Home Mortgage Company Limited and a 51% investment in The Warehouse Financial Services from Westpac Holdings - NZ - Limited, a fellow subsidiary of the Ultimate Parent Bank.

The accounting policies in Note 1, as disclosed in the Banking Group's 31 March 2007 General Disclosure Statement, have been applied in the preparation of this disclosure.

Note 18 Proforma comparative

The Bank was incorporated on 14 February 2006, and did not trade as a registered bank prior to 1 November 2006. Therefore, it is not possible to provide comparative information. However, in order to provide additional information to readers, the following proforma consolidated income statement, balance sheet and supporting notes have been prepared.

This note provides a general indication of key financial statements of the Banking Group as at 30 June 2006 and 30 September 2006 as if the Bank had existed, and the vesting of assets and liabilities described in Note 17 had occurred, at 1 October 2005 (the beginning of the Bank's financial year). This note should not be construed in any way as a statement of the actual financial performance of the Banking Group over, or the financial position of the Banking Group as at the end of, the stated periods. The proforma comparative statements are prepared to assist users in their interpretation of the actual financial statements for the Banking Group disclosed in this General Short Form Disclosure Statement. In comparing the actual results for the eight months ended 30 June 2007 with the proforma results for the periods ended 30 June 2006 and 30 September 2006 note that, as at 30 June 2007, the Banking Group had only traded as a registered bank for eight months. Westpac Banking Corporation's General Disclosure Statements prepared for the periods ended 30 June 2006 and 30 September 2006 form the basis of this disclosure information and should be read in conjunction with this note.

The statement of cash flows and changes in equity have not been prepared due to the inherent uncertainty in the creation of this retrospective information and the view that this would not provide meaningful information to the users of this General Short Form Disclosure Statement.

In preparing the proforma income statement and balance sheet, the financial information has been extracted from the general ledger of the NZ Branch with an additional adjustment for subsequent related entity acquisitions by the Bank of Westpac (NZ) Investments Limited, The Home Mortgage Company Limited and a 51% interest in The Warehouse Financial Services Limited on 1 November 2006, each of whose business relates to retail banking operations. The difference between all assets and liabilities identified as vesting in the new entity has been assumed to be funded through the "Other amounts due to related entities" with a relevant funding cost adjustment in the income statement. Any other assets and liabilities and their related income and expenses which formed part of the actual vesting process on 1 November 2006, but were not part of the standard business and consumer banking products have been similarly adjusted in both the balance sheet and income statements for comparison purposes. It is also assumed that the ordinary share capital and perpetual subordinated notes were issued and remained on issue during the relevant periods in the amount stated in the Bank's balance sheet as at 30 June 2007. It has been assumed that all retained profits have been distributed to the parent entity and minority interest.

It has also been assumed that a balance of \$1,000 million of trading assets would be required to maintain the liquidity portfolio.
