## Note 1 Statement of accounting policies

#### Statutory base

In these financial statements reference is made to the following reporting entities:

- Westpac Banking Corporation Group (otherwise referred to as the 'Overseas Banking Group') refers to the total
  worldwide business of Westpac Banking Corporation including its controlled entities;
- Westpac Banking Corporation (otherwise referred to as the 'Overseas Bank') refers to the worldwide activities of Westpac Banking Corporation excluding its controlled entities;
- Westpac Banking Corporation New Zealand Division (otherwise referred to as the 'NZ Banking Group') refers to the New Zealand operations of Westpac Banking Corporation Group including those entities whose business is required to be reported in the financial statements of the Overseas Banking Group's New Zealand business;
- Westpac Banking Corporation New Zealand Branch (otherwise referred to as the 'NZ Branch') refers to the New Zealand Branch of Westpac Banking Corporation (trading as Westpac); and
- Westpac New Zealand Limited (otherwise referred to as 'Westpac New Zealand') refers to a locally incorporated subsidiary of the Overseas Bank (carrying on the Overseas Bank's New Zealand consumer, business and institutional banking operations).

These consolidated financial statements have been prepared and presented in accordance with the Registered Bank Disclosure Statements (Overseas Incorporated Registered Banks) Order (No 2) 2012 ('Order') and the Reserve Bank of New Zealand Act 1989 ('Reserve Bank Act').

These financial statements have also been prepared in accordance with Generally Accepted Accounting Practice in New Zealand, as appropriate for profit-oriented entities, and the New Zealand Equivalent to International Accounting Standard ('NZ IAS') 34 Interim Financial Reporting and should be read in conjunction with the Disclosure Statement for the year ended 30 September 2012

These financial statements comply with International Accounting Standard 34 *Interim Financial Reporting* as issued by the International Accounting Standards Board.

As a result of the new and revised accounting standard which became operative for the annual reporting period commencing 1 October 2012, the NZ Banking Group adopted *Presentation of Items of Other Comprehensive Income* (Amendments to NZ IAS 1). Under the amended standard, the format of other comprehensive income has changed to separate items that may be recycled to the income statement from items that will not be recycled. Adoption of this revised accounting standard has not resulted in any material change to the NZ Banking Group's reported result or financial position.

These financial statements were authorised for issue by the Board on 28 February 2013. The Board has the power to amend the financial statements after they are authorised for issue.

#### **Basis of preparation**

These financial statements are based on the general principles of historical cost accounting, as modified by fair value accounting for available-for-sale financial assets, financial assets and financial liabilities at fair value through profit or loss and all financial derivative contracts. The going concern concept and the accrual basis of accounting have been adopted. All amounts are expressed in New Zealand dollars unless otherwise stated.

The same accounting policies and methods of computation have been followed in preparing these financial statements as were used in preparing the financial statements for the year ended 30 September 2012, except as amended for the changes required due to the adoption of the new and revised accounting standard as explained in the 'Statutory base' section.

Certain comparative information has been restated to ensure consistent treatment with the current reporting period. Where there has been a material restatement of comparative information the nature of, and the reason for, the restatement is disclosed in the relevant note.

#### **Basis of aggregation**

The NZ Banking Group as at 31 December 2012 has been aggregated by combining the sum of the capital and reserves of the NZ Branch, Hastings Forestry Investments Limited, and the consolidated capital and reserves of BT Financial Group (NZ) Limited, Westpac Financial Services Group-NZ-Limited, Westpac Group Investment-NZ-Limited, Westpac New Zealand Group Limited and their controlled entities. For New Zealand entities acquired by the Overseas Banking Group, capital and reserves at acquisition are netted and recognised as capital contributed to the NZ Banking Group.

The NZ Banking Group may invest in or establish special purpose entities to enable it to undertake specific types of transactions. Where the NZ Banking Group controls such entities, they are consolidated into the NZ Banking Group's financial results.

All transactions and balances between entities within the NZ Banking Group have been eliminated.

Non-controlling interests are stated at the proportion of the net profit and net assets of a subsidiary attributable to equity interests that are not owned, directly or indirectly by the NZ Banking Group. Losses are attributed to the non-controlling interest even if that results in a deficit balance.

## **Note 12 Segment information**

The NZ Banking Group operates predominantly in the consumer, business and institutional banking sectors within New Zealand. On this basis, no geographical segment information is provided.

The basis of segment reporting reflects the management of the business, rather than the legal structure of the NZ Banking Group. There is no difference in accounting measurement between the management and legal structures. The operating segment results have been presented on a management reporting basis and consequently internal charges and transfer pricing adjustments have been reflected in the performance of each operating segment. Intersegment pricing is determined on a cost recovery basis.

The NZ Banking Group does not rely on any single major customer for its revenue base.

The NZ Banking Group's operating segments are defined by the customers they serve and the services they provide. The NZ Banking Group has identified the following main operating segments:

- Retail Banking provides financial services for individuals;
- Wealth provides financial services for high net worth individuals, funds management and insurance distribution;
- Business Banking provides financial services for small to medium sized enterprise customers, corporates and agricultural businesses; and
- Institutional Banking provides a broad range of financial services to large corporate, institutional and government customers and the supply of derivatives and risk management products to the entire Westpac customer base in New Zealand.

Retail Banking and Wealth have been aggregated and disclosed as the Consumer Banking reportable segment. Business Banking and Institutional Banking are separate reportable segments.

## **Note 12 Segment information (continued)**

Reconciling items primarily represent:

- business units that do not meet the definition of operating segments under NZ IFRS 8 Operating Segments;
- elimination entries on consolidation/aggregation of the results, assets and liabilities of the NZ Banking Group's controlled entities in the preparation of the aggregated financial statements of the NZ Banking Group; and
- results of certain business units excluded for management reporting purposes, but included within the aggregated financial statements of the NZ Banking Group for statutory financial reporting purposes.

Net interest income and non-interest income have been included in the following table to align with the information provided to the 'chief operating decision maker'. Comparative information for net operating income from external customers and net internal operating income has been changed to ensure consistent presentation with the current reporting period. Additionally, profit before income tax expense from domestic transactional banking deposits of certain customers and the associated deposits has been reclassified from the Business Banking segment to the Institutional Banking segment. The revised presentation has no impact on total profit before income tax expense for the three months ended 31 December 2011 and the year ended 30 September 2012.

#### **Note 13 Insurance business**

Westpac Life is carrying on insurance business in New Zealand and is therefore subject to the requirements set out in the Insurance (Prudential Supervision) Act 2010, including licensing and supervision by the Reserve Bank of New Zealand ('Reserve Bank'). Westpac Life was granted a provisional licence by the Reserve Bank on 22 February 2012, subject to standard conditions including a requirement to establish a statutory fund which effectively separates life insurance assets and policy liabilities from any other business carried out by Westpac Life. The statutory fund was established by Westpac Life effective from 1 October 2012.

## Note 14 Risk management

#### 14.1 Credit risk

# The NZ Banking Group's residential mortgages by loan-to-value ratio ('LVR') as at 31 December 2012 (Unaudited)

In order to calculate origination LVR, the current exposure is that used in the internal ratings based approach for mortgage lending. For loans originated from 1 January 2008, the NZ Banking Group utilises its loan origination system. For loans originated prior to 1 January 2008, the origination LVR is not separately recorded, and therefore not available for disclosure as required under Clause 1 of Schedule 9 to the Order. For these loans, the NZ Banking Group utilises its dynamic LVR process to calculate an origination LVR. Exposures for which no LVR is available have been included in the 'Exceeds 90%' category in accordance with the requirements of the Order.

#### Liquid assets

The table below shows the NZ Banking Group's holding of liquid assets and represents the key liquidity information provided to management. Liquid assets include high quality assets readily convertible to cash to meet the NZ Banking Group's liquidity requirements. In management's opinion, liquidity is sufficient to meet the NZ Banking Group's present requirements.

## Note 15 Concentration of credit exposures to individual counterparties

The following credit exposures are based on actual credit exposures to individual counterparties and groups of closely related counterparties.

The number of individual bank counterparties (which are not members of a group of closely related counterparties), and groups of closely related counterparties of which a bank is the parent, to which the NZ Banking Group has an aggregate credit exposure that equals or exceeds 10% of the Overseas Banking Group's equity:

- as at 31 December 2012 was nil; and
- in respect of peak end-of-day aggregate credit exposure for the three months ended 31 December 2012 was nil.

The number of individual non-bank counterparties (which are not members of a group of closely related counterparties), and groups of closely related counterparties of which a bank is not the parent, to which the NZ Banking Group has an aggregate credit exposure that equals or exceeds 10% of the Overseas Banking Group's equity:

- as at 31 December 2012 was nil; and
- in respect of peak end-of-day aggregate credit exposure for the three months ended 31 December 2012 was nil.

The peak end-of-day aggregate credit exposures have been calculated by determining the maximum end-of-day aggregate amount of actual credit exposure over the relevant three-month period and then dividing that amount by the Overseas Banking Group's equity as at 30 September 2012.

Credit exposures to individual counterparties (not being members of a group of closely related counterparties) and to groups of closely related counterparties exclude exposures to the central government of any country with a long-term credit rating of A- or A3 or above, or its equivalent, or to any bank with a long-term credit rating of A- or A3 or above, or its equivalent. These calculations relate only to exposures held in the financial records of the NZ Banking Group (excluding exposures booked outside New Zealand) and were calculated net of individually assessed provisions.

<sup>1</sup> The capital ratios represent information mandated by Australian Prudential Regulation Authority ('APRA').

#### Note 16 Overseas Bank and Overseas Banking Group capital adequacy (continued)

Basel II came into force on 1 January 2008. The Overseas Banking Group is accredited by APRA to use the Advanced Internal Ratings Based ('Advanced IRB') approach for credit risk, the Advanced Measurement Approach ('AMA') for operational risk and the internal model approach for Interest Rate Risk in the Banking Book ('IRRBB') for calculating regulatory capital (known as 'Advanced Accreditation') and is required by APRA to hold minimum capital at least equal to that specified under the Advanced IRB and AMA methodologies. Under New Zealand regulations, this methodology is referred to as the Basel II (internal models based) approach. With this accreditation, the Overseas Banking Group is required to disclose additional detailed information on its risk management practices and capital adequacy on a quarterly and a semi-annual basis. This information is made available to users via the Overseas Banking Group website (www.westpac.com.au). The aim is to allow the market to better assess the Overseas Banking Group's risk and reward assessment process and hence increase the scrutiny of these processes.

The Overseas Banking Group, and the Overseas Bank (Extended Licensed Entity) as defined by APRA, exceeded the minimum capital adequacy requirements as specified by APRA as at 31 December 2012. APRA specifies a minimum prudential capital ratio for the Overseas Banking Group, which is not made publicly available.

Since 2012 the Overseas Banking Group's capital ratios have been measured using the new Basel 2.5 standards, which became effective from 1 January 2012. These standards principally involved changes in risk-weighted assets applied to market risk and to securitisation.
