

Viewing payment history & Tracking international payments.

Follow this guide to view a 2-year history of payments processed and track international payments after processing by the Bank. **Note: Payment tracking is only available on international payments from accounts in Australia.**

To perform this procedure, you require access to the **Office**, **Debit account**, and **Payment currency** for each payment you wish to view.

- From the **Payments** menu, select **Payment history**.

Each payment is detailed with a status before, during and after processing. A successful payment will have a status of either **COMPL** - **Completed** or **PROCD** - **Processed**.

You will receive an information message when payments have a status of **RFUSD** - **Refused** or **PYERR** - **Payment contains errors**.
