GSIB1 – Disclosure of global systemically important bank (G-SIB) indicators

The Basel Committee on Banking Supervision (BCBS) has developed a framework comprising a series of quantitative indicators to assess whether a financial institution should be designated as a G-SIB. These indicators encompass measures of an institution's size, degree of interconnectedness within the financial system, role as a provider of critical market infrastructure services, complexity of operations, and extent of cross-jurisdictional activity.

The following table has been prepared and disclosed in accordance with the requirements set out in APRA Prudential Standard APS 330 Public Disclosure (Attachment A, paragraph 36) and the BCBS Standard DIS75.
