Good advice.

By planning ahead and controlling your spending, you can spend less than you earn and save the surplus. You'll be able to pay your bills and start building up a reserve of emergency funds.

Stop and think.

- Don't spend more than you earn.
- Take control.
- Pay yourself first.
- Make it a habit to save.
- Protect your income and assets.
- Develop healthy spending habits.
- Plan your budget.
- Use credit wisely.
- Shop around for value.
- Need or want?

The Leak Factor.

Spending leaks are small regular spends, like your daily coffee, that add up over time. Unchecked, they may become the difference between whether or not you achieve your financial goals. This chart shows how they accumulate over time.

Day	Week	1 year	5 years

2	14	730	3,650
5	35	1,825	9,125
10	70	3,650	18,250
