2. Cardholder Conditions

The provisions of the Cardholder Conditions relating to security and unauthorised transactions apply in relation to the Service as if your One Time Password were a “PIN” or “code” as defined in the Cardholder Conditions.

3. Description of Service

- a. The Service provides you with a way of increasing security in online transactions at Participating Online Retailers, and with Participating Platforms, by reducing the likelihood of fraud for those transactions. The Service may also be used for transaction record keeping and reporting purposes, as well as to help resolve any transaction disputes.
- b. The service may be used as part of online transactions with Participating Online Retailers, and on Participating Platforms, unless the use of the Service is terminated in accordance with clause 6.

4. Authentication

- a. When making an online transaction at a Participating Online Retailer or on a Participating Platform, you may be required to enter a One Time Password in the password field to authenticate the transaction (before the Participating Online Retailer or Participating Platform accepts your Card for the transaction). The password is only valid for single use.
- b. As part of the Service, we will provide you with a list of Mobile Phone numbers and email addresses that you have provided to us as your contact details. We recommend you select a Mobile Phone number or email address used only by you. If the Mobile Phone or email address is used by other people, they may receive, or be able to access your One Time Password.
- c. We don't charge you a fee for sending a One Time Password to your Mobile Phone number. However, your Mobile Phone service provider may impose fees and charges, including fees and charges for sending and receiving SMS messages. The payment of such fees and charges is the responsibility of the Mobile Phone account holder.
- d. If you are unable to enter your password in the One Time Password field, or if the authentication through the Service otherwise fails, the Participating Online Retailer or Participating Platform may not accept your Card for that transaction.
- e. For security purposes, in the event that the allowable number of attempts to authenticate your identity have been exceeded, the transaction may not be able to be completed and your Card and any other Cards linked to your account may be temporarily blocked. The Account holder must contact Westpac to unblock all Cards linked to the account.
- f. You should delete any message we send you containing the password once you have entered the password in the One Time Password field.

You may update these details:

- a. in Online Banking;

If you don't provide us with a correct Mobile Phone number or email address, or update us of any changes, you may not be able to proceed with your online transaction at a Participating Online Retailer or with a Participating Platform.

6. Termination

Where it is reasonably necessary to do so, we may temporarily or permanently terminate the Service at any time, in accordance with the notice requirements set out in the Cardholder Conditions. You can continue to use your Card to make online transactions following termination.
