Notes:

* **Instalment investors who have disposed of their instalments during the June 2019 financial year:** This guide does not address a disposal of your securities and you should refer to the 'Disposal' section of the 'Guide to the Taxation of Westpac Instalments' and/or consult your professional tax adviser.

** **Distributions:** If the Underlying Securities are or include units in an Attribution Managed Investment Trust ("AMIT"), listed trust, exchange traded fund ("ETF") or stapled security (e.g. STW), attributions from the AMIT and distributions from the trust, ETF or stapled security should have the same character as the amounts derived by the AMIT, trust, ETF or stapled security (e.g. they may include capital gains, foreign tax credits or franked dividends). The tax composition of attributions from AMITs, distributions from trusts, ETFs or stapled securities is contained in the Annual Distribution and Attribution Statement for the relevant AMIT, trust, ETF or stapled security. This statement will be issued by Westpac once the underlying issuer has released these details. You should refer to the Tax section of the relevant PDS for further details on the tax treatment of these attributions or distributions. Footnotes 2, 4 and 14 refer to the assumptions set out in your Instalment Tax Statement.
