

Significant Investor Visa

A pathway to permanent residency in Australia.

Moving to a new country is never easy, there are so many things to think about and options to consider. We have the expertise to make this exciting transition as easy as possible for you and your family.

WHAT IS THE SIGNIFICANT INVESTOR VISA?

The Significant Investor Visa (SIV) was introduced in 2012 by the Australian Government to enable foreign citizens with at least AU\$5 million **to obtain permanent residency in Australia** by investing in complying Australian investments.

The SIV is a component of the Business Innovation and Investment Program (BIIP) run by the Department of Immigration and Border Protection (DIBP).

The investment framework for SIV was amended, effective 1 July 2015, by the Australian Government to direct investments into sectors which can contribute to the economic development of Australia.

WHAT ARE THE VISA REQUIREMENTS?

SIV requires the applicant to invest at least AU\$5 million for a minimum period of four years in the following investments:

- ▶ AU\$500,000 minimum in venture capital fund(s)
- ▶ AU\$1.5 million minimum in managed funds satisfying the emerging companies investment criteria
- ▶ The remainder in managed funds satisfying the balancing investments criteria

Subject to satisfying government requirements, the visa provides work, travel and study rights to the applicant as well as their immediate family and dependent relatives.

There are no upper age limits or language requirements.

Applicants do not need to satisfy the innovation points test¹.

¹ Innovation points are required for those applying under the Business or Investor component of the BIMP.
